A BEAUTIFUL CHOICE

NOW THE BRAND NEW DESIGN VERSION WITH A TOUCH OF NOSTALGIA

CLASSIC COLUMN RADIATOR WITH HIGH EFFICIENCY

The column radiator, let us admit, is a true classic that has never really disappeared from view.

After all, **the retro look** of this radiator has continued to appeal to the imagination over time.

It is therefore not so surprising that this radiator with its distinctive design is being revived.

Today, Henrad column radiators meet all expectations in terms of **contemporary heating comfort**. The vintage look is coupled with a high heat emission.

Moreover, these radiators can also be combined with **low temperature systems**.

The column radiators are available in **a horizontal and a vertical version**, so you can match them perfectly and fit them in any space. This radiator comes into its own in both a classic and modern interior. In short, it is a real eye-catcher!

Characteristics :

- Retro look, beautiful design
- Can be combined with all common heating systems
- High heat output
- Suitable for low temperature heating thanks to the large heating surface
- Horizontal and vertical version
- Quick and easy to clean thanks to the wide openings.

COLUMN VERTICAL

From classic townhouses to modern lofts, the vertical column radiator comes into its own in every home due to its timeless appearance.

THE STRENGTHS OF COLUMN VERTICAL

The vertical column radiator combines a stylish, nostalgic design with functionality and high heat outputs. The extensive colour palette offers the possibility to go one step further and to fully adapt the radiator to your interior.
